Profile 150 have been designed to offer lasting slip resistance. They are made from a composite material that is suitable for use in harsh environments; including, high exposure to salt water.

FRP stair nosing profile 150 is an industrial stair nosing suitable for areas which require high non slip stair safety solutions.

FRP stair nosing is used in commercial, industrial, mining, and the oil and gas industries.

Size: 150mm x 25mm x upto 2000mm long, other lengths available on request

It is available with heavy duty silicon carbide anti-slip grit

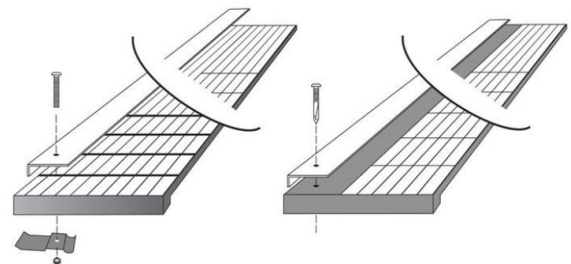

150 stair nosing has been slip resistance tested to AS 4586:2013 passing with the highest slip resistance rating of Class P5 for Wet Pendulum Test and Class DI for Dry Floor Friction Test - LRV values on request

## Application

Installation of Stair Nosings

- Chequered Plate/ Steel: Glue and screw with Tek screws
- Concrete: Glue and screw with self tapping concrete screws
- Timber: Fix with suitable timber screws
- Grated Stairs or Grille: Fit with Universal saddle assembly.
