## STAIRNOSING 423series-stair nosing suitable for all level surfaces

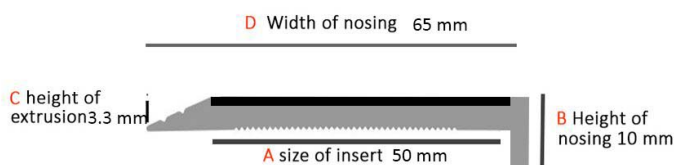

This nosing is suitable for all hard surfaces. It can be installed on ceramics, wood, porcelain and terrazzo or concrete.

This nosing is an adhesive fix only

423 stair nosing has a 10 mm face or turn down, this means that the steps have to be level. It is recommended to choose another profile, if the step edges are chipped or cracked, or in some cases where the stairs have a rolled edge.
