

Recessed stair nosing features clear or black anodised aluminum matched with a high-grade carborundum insert.

Designed to comply with AS-1428.1 2021, it features high grade aluminum construction with a carborundum insert. A P5 slip rating from a NATA approved laboratory, tested to AS 4586

The clear alloy is available with Black, Yellow, Grey and White insert to provide designer options, as well as providing a solution for various colour and types of substrates – enabling compliance with the 30% colour contrast required under the standard.

This nosing type is recess mounted, suitable for indoor or outdoor applications.

BASE MATERIAL	Alloy: 6060, Temper: T5
FINISH	Clear Anodised – 25Um or Black anodised
TREAD WIDTH	60 mm
FRONT DEPTH	10mm
TREAD THICKNESS	10 mm
INSERT TYPE	Epoxy
PRODUCT WARRANTY	(As per Stair Nosing Australia's standard warranty conditions)
INSERT SLIP RATING	P5 classification
CODE COMPLIANCE	AS1428.8 2021 compliant Check floor finish colour for luminance contrast requirements
FIXING METHOD	Adhesive Only
APPLICATION	Rebated-recessed into wood concrete, hard surfaces
